About MobiWIC

SoliSYSTEMS designed the MobiWIC POS terminal to be the simplest and most economical way to accept and manage eWIC & SNAP transactions.

MobiWIC packs the multi-functionality of the eWIC-compliant cash register inside a durable smart terminal.

We focus on your business: MobiWIC generates and submits your daily claim files - ensuring fast and accurate payment.

MobiWIC is integrated into a web app allowing you to monitor the status of reimbursement payments and generate custom sales reports.

MobiWIC

MobiWIC is a multi-function heavy-duty smart terminal for processing WIC and SNAP transactions.

WiFi

Sync by WiFi to submit daily claim files, and update Approved Product and Hot Card Lists.

Web Application

Generate custom sales reports, manage cashiers, check claim file payment status, add and price new products.

TOUCH SCREEN

Capacitive HD touch-screen that works with wet fingers.

UPC SCANNER

Quickly scan UPC codes for fast transaction times.

eWIC CARD READER

Designed specifically to securely read and accept eWIC cards.

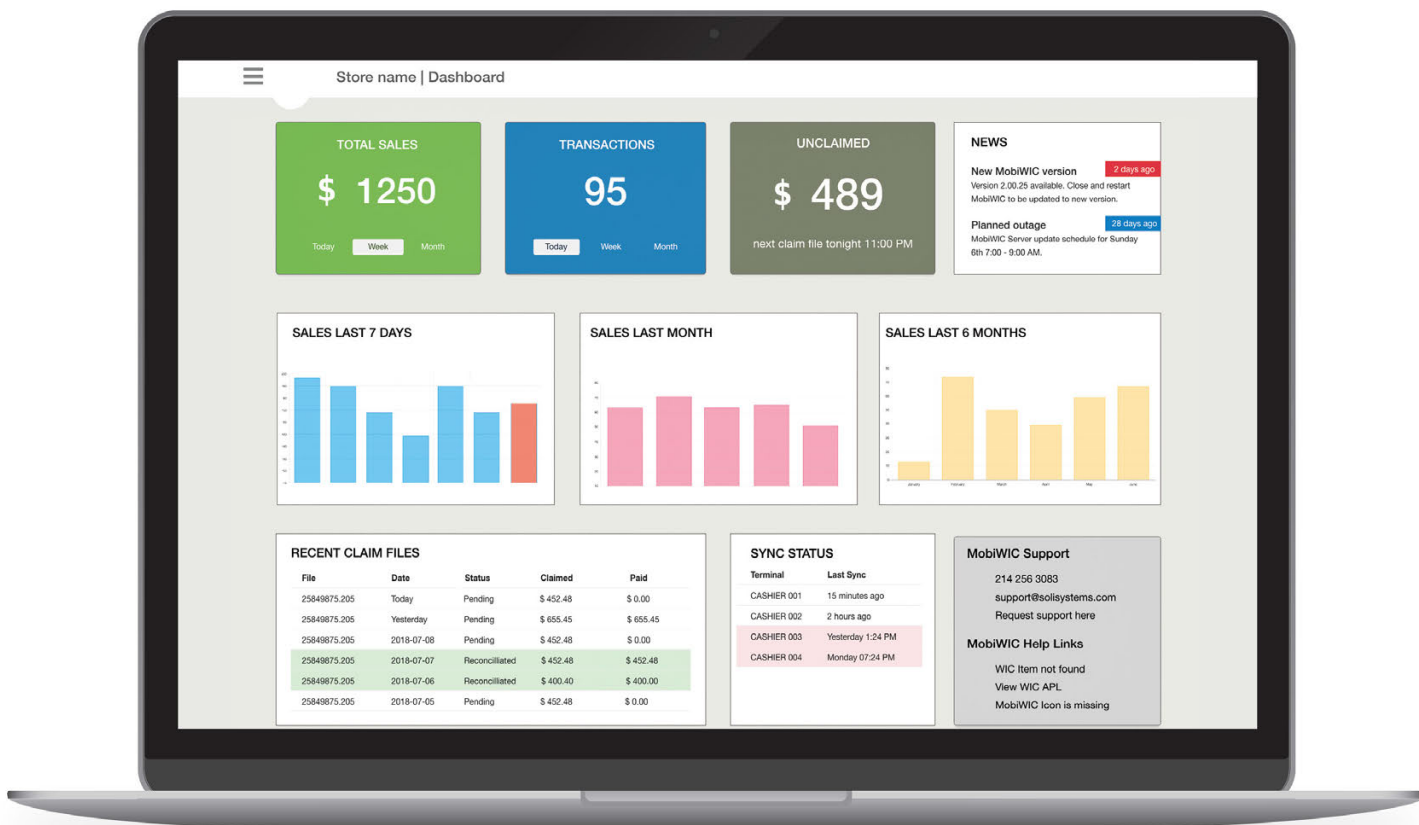

RECEIPT PRINTER

Reliable and economical receipt printer for checking benefits and documenting transactions.

MobiWIC Web Application

MobiWIC comes with a powerful web application that simplifies the management of your WIC sales and terminal functions.

Accessing your information, either remotely, or within the store, makes it easy to stay on top of what is going on at your site.

Key Features:

✓ Dashboard

Monitor sales volume, number of transactions, claim files submitted, & status of payments online.

✓ Sales Reports

Generate custom sales reports that help you manage inventory and logistical challenges.

✓ Product Management

Add and set prices for your WIC products. Import or Export product lists to .xls or .csv files

✓ Remote Access

Manage and track your WIC sales from home, office, or anywhere with an internet connection.

✓ Wireless Sync

Sync your MobiWIC terminal to the State WIC authority via WiFi.

✓ Claim Files

Track and monitor claim files and payment status. Export detailed reports that keep you up to date.

Technology Overview

- Manage one or several MobiWIC devices via the MobiWIC Web Application.
- Receive email status alerts from synchronization and reconciliation processes.
- No transaction fees.
- Integrate multiple WIC Authority programs and synchronize data with multiple branches.
- Aggregate X9.993 files from multiple terminals using V2 or V4 file formats.
